CAREER OBJECTIVE

Language-agnostic Computer Science undergraduate with strong foundations in problem solving, AI and AI-assisted development, focused on building scalable systems and high-impact software products.

EDUCATION

2023 - 2027 Bachelor's Degree at **Nagesh Karajgi Orchid College of Engineering and Technology, Solapur** [[See Transcript](#)] (CGPA: 8.7/10.0)
2018 - 2020 Class 12 at **Johnson Grammar School (ISC), Hyderabad** (CGPA: 8.5/10.0)

SKILLS

Languages	Java, JavaScript, SQL, TypeScript, Python, C++
Frameworks & Libraries	Spring Boot, React, Node.js, Next.js, Express.js, WebSockets, TensorFlow
Database/Tools	SQL, NoSQL, Git/GitHub, Postman, REST, GraphQL, JUnit5
Coding Profiles	LeetCode (500+ problems), CodeForces (200+ problems), GitHub

PROJECTS

Stock Exchange System — Java, Spring Boot, React, TypeScript, Docker, Maven [GitHub](#)

- Designed and implemented a distributed stock exchange system across three microservices communicating via a custom UDP multicast protocol with a NAK/ACK retransmission layer, using dedicated multi-threading per service to separate order ingestion, matching, and broadcast concerns
- Achieved safe concurrent order processing by synchronizing shared state with lock-free primitives (ConcurrentHashMap, BlockingQueue, AtomicBoolean) and an in-memory Red-Black Tree order book with O(1) matching throughput

LeetCode IntelliSense — JavaScript, Manifest V3, Monaco Editor, Extensions [Link](#), [GitHub](#)

- Developed a cross-browser extension that brings IDE-style IntelliSense to LeetCode, including hover documentation, code completion, and signature help for Java, C++, and Python.
- Built a custom type-inference and symbol-resolution engine to provide real-time, context-aware suggestions from **60+ standard-library APIs**.
- Reverse-engineered/patched Monaco Editor while supporting reliable SPA and language navigation.

ACHIEVEMENTS

Won **5+ national-level technical events**, competing among **500+ participants per event** [[Link](#)]

Achieved **Top 26% global rank (3364/13,000+)** in **IICPC CodeFest '26 Prelims** [[Link](#)]

Qualified GATE CS 2026, demonstrating **industry-level knowledge of CS fundamentals**. [[Link](#)]

Scored **97%** in the **NPTEL (IIT Kharagpur) Algorithms** course, ranking **5th** in India. [[Link](#)]

- Led my team in organizing a 36-hour national level hackathon - **Orchathon 2K26** [\[Link\]](#)
